1. Mr Ridley has seen a copy of Mr Fearn's minute of 24 October 1980 and has made the following comments:

'I think there is doubt about a green light from OD - and if the light was red, or amber, this course of action could put us in trouble. We would need time to decide how to react to a non-green light - and I therefore doubt if we should do or say anything until 8 November - this still leaves time to ask the Argentines to give us a positive answer before I set off
