

10 DOWNING STREET
LONDON SW1A 2AA

From the Private Secretary

Agreed by
PM, Lord
Caithness and

CM

CFCs

Lord Caithness is in the
Environment Council in Brussels,
discussing our proposal to reduce
use of CFCs by 25% by the
end of the century.
He has been in effect ambushed. A
majority of others are saying it
should be 100%.

He has to speak near the water to
go along with this. It would be a

statement of political ~~interest~~ intent
rather than a legal obligation.

In view of our Conference at
the week-end, I think we

should go ~~to~~ along with this.

DOE - at a quick check - think

it is all right.

It's not the best way to do

business: but he is in a jam.

Agree >

Mr. Ridley &
Lord Kanny
agree.

C.D.P.
