Dear David,

SEMINAR ON GREENHOUSE EFFECT: PUBLICITY

Thank you for your letter of 28 April. As you will know, my Secretary of State has been invited by the Prime Minister to make proposals on how the public presentation of the seminar should be handled. He has seen your letter and has commented that it would be a pity if the seminar papers were issued piecemeal, particularly as Dr Currie's paper ought to be set in the context of the scientific uncertainties identified by Professor Wigley. He suggests that both papers be sent to the Select Committee and officials here will get in touch with yours with a clean text.

I am copying this letter to Dominic Morris.

Yours

KES Bush
